DEATHS.—The date of death and age of all citizens, dying during the past twelve months, whose names have appeared in the Directory, are recorded against the name in the proper alphabetical place in the present book. In the same manner each Directory since 187[illegible] contains a record of those who died the previous year, so that the several volumes of the Directory will preserve for this period a mortuary list of great value for reference.

a Included City Ordinances. * Decrease.

b The Directory was a 24mo until 1858 when the size was enlarged to a 12mo, and the matter printed in double columns. In 1866 the book was enlarged to octavo, and the matter again put in single columns, but of a much larger type. In 1872 the size was changed to large octavo, and the matter put in small type in double columns. Until 1866, it was bound in stiff paper covers, a few copies only at an extra price being bound in boards.

c From this date deaths and removals were given, the number this year being 786, leaving a net increase of 2. *d* Size of page enlarged.

A Street Directory of Inhabitants, to accompany a Map of the village of Worcester, was issued in 1829, by the late Clarendon Harris, and a Business Directory in 1842 by A. W. Congdon.

PLEASURE DRIVES.

All the roads to the surrounding towns lead through pleasant farming districts, but late in the season, when drought and a hot sun have rendered these frequented routes less agreeable, there are many charming by-paths which retain the freshness of early Summer. For the benefit of those who may not prefer to explore for themselves, a few directions are given.

ELM TREE DRIVE.—From Lincoln street, leaving City Farm on the left, pass Lake Quinsigamond. Then take first turn to the right. This road leads out to Belmont street beyond the Causeway.

LILY POND DRIVE.—Turning from Lincoln street into Boylston street take the first turn to the right leading round the head waters of Lake Quinsigamond and into Elm Tree Road.

BANNISTER MILL DRIVE.—Turn from Lincoln street into Boylston street. Take the third turn to the right, a narrow way through the woods, somewhat overgrown, and after passing the mill take first turn to the right. This road leads out on the Lily Pond road.

BOWLDER DRIVE.—First turn to the right from Boylston street after passing Mr. Gough's place; follow this road to the third turn, which leads to Shrewsbury, past a curious Bowlder on an eminence at the right.

THE RESERVOIR DRIVE.—Main road to Leicester. At Cherry Valley turn to right, and, keeping to the right past the Reservoir, descend Sylvester hill into Tatnuck.

GREENWOOD ROAD DRIVE.—Main road to Quinsigamond village, just beyond, keep to the right, and round by the left to the Millbury road; thence, the right turn leads to that town, the left back to Worcester.

OLD COMMON DRIVE.—Main road to Millbury. Turn to the right by the Millbury Bank; keep the straight road, leaving Bramanville on the left; the old common, about a mile from Millbury village, lies at the top of the hill, which is the site of the earliest settlement in the town—the original Millbury village; turn to the right down the hills, which give pleasant views, into the Greenwood road and straight back to town.

FLAGG'S RETREAT ROAD.—From Greenwood road, second turn to the right, about three miles to railroad crossing, pass this, and turn to right, then to right again to Southbridge street. Drive out through Southbridge street to the Auburn station, turn to the left over the railroad, and keep straight on this road, coming down Mt. St. James, by the Holy Cross College, into Southbridge street. A beautiful drive, with pleasant views.

DAVIS COTTAGE ROAD DRIVE.—Main road to Grafton, second turn to left; take the second turn again to the left, this road leads to the old Boston turnpike; turn to the left, come back over the Causeway at the lake.

SOUTH LEDGE DRIVE.—From Winthrop street leaving Mr. Crompton's residence on the left, turn into Granite street, which leads past the South Ledge, and through the woods to the Millbury road.

HOLDEN POOR FARM DRIVE.—From the main road to Holden, take second turn to the left, then first turn to right. Pass the Holden Poor Farm, turn again to the left and back to Worcester through Salisbury street. Part of this drive through the woods is rough, but beautiful.

SILVER SPRING DRIVE.—From the Paxton road beyond Tatnuck the second turn to the right leads to the little spring in a grove at the right, where seats have been placed for picnic parties. From the top of the hill beyond the grove, a fine view is afforded, and following the road down the steep descent and turning to the right, it leads back to Tatnuck.

SILVER CASCADE.—Holden road from Tatnuck, first turn to the left, past the homestead of the late Stephen S. Foster, then to right into a narrow overgrown road. The little stream, which in the Spring is sufficient to form a pretty cascade, comes down the hill on the left.

STONE HOUSE HILL.—Same road from Tatnuck to Holden, first turn to right about 1-2 mile beyond residence of Mr. F. J. Kinney and go to the end of the road. A walk through the pastures leads to the Ledge of Rocks, which gives the name. During the stormy times preceding the breaking out of the revolutionary war, the royalist residents in Worcester, fearing violence, retired to this place, making some additions to the natural defences of the situation, which afterwards received the name of the Tory Fort.

BELLEVUE DRIVE.—Holden and Tatnuck road, second turn to right, second turn again to right, then first turn to left, then first turn to right and back to town. At one point on this road there is a pretty view of Monadnock and Wachusett mountains.

MULBERRY GROVE DRIVE.—Paxton road, about a mile beyond Tatnuck, turn to left, and keeping to the left, cross to Leicester.

HAPPY VALLEY.—In West Boylston about seven miles from City Hall—a small grassy intervale surrounded by wooded hills, picturesque and secluded. Follow Burncoat street to City line and continue about two miles beyond Summit station, taking third turn to the right, pass residence of Geo. T. Brigham, and where the stone wall on left of road ends, turn immediately to the left and a blind carriage way takes you into the Happy Valley.

ASNEBUMSKIT HILL.—Main road to Paxton three or four miles beyond Tatnuck. Carriages left at a farm house on the road side. Ascent made on foot. The summit of Asnebumskit can be reached also from the Holden side. Holden road through Tatnuck, take second turn to left, after passing residence of Mr. F. J. Kinney. Carriages can be left at farm house at foot of hill, or at a deserted farm house lying about half-way up. This route is the shortest and gives a nearly level road, but calls for the most climbing after leaving carriages. Distance from Worcester to top, about seven miles. A rough path, which can be traversed afoot or mounted, connects the two sides. This hill (1407 feet above tide water), excepting Wachusett (2008 feet) is the highest point in this part of the State, and gives on the north a fine view of Monadnock (3186 feet), and of the Green Mountains beyond. It is hoped a carriage road will soon be made, to enable all to enjoy the fine view from this hill.

PURGATORY.—This remarkable chasm lying in thick woods in the southeast portion of the town of Sutton is some 30 feet wide and more than 1000 feet long, while the depth, in places, reaches nearly 60 feet; the view of the rocky walls and overhanging ledges is picturesque and impressive. It is a resort for woods parties. Take direct road to Millbury and pass through Sutton village, or Wilkinsonville. Distance from Worcester about 16 miles.

WACHUSETT MOUNTAIN.—This hill, one of the highest in the State (2008 feet above tide water), lying in the north part of the town of Princeton, furnishes a view covering nearly the whole extent of Massachusetts. At the north the Green and White Mountain ranges are in full view, and with the aid of a glass vessels can be seen under sail in Boston harbor. The distance from Worcester is about seventeen miles, through woods and pleasant farming districts, the most direct roads being the continuation of Salisbury street, or Holden street, through the town of Holden.

BRYANTS' WOODS.—From Leicester village take road to Paxton, first turn to left, and continue about two miles to Pudding Corners schoolhouse, leaving that on the left these beautiful woods are immediately ahead.

THE METRIC SYSTEM.

LEGALIZED BY ACT OF CONGRESS, JULY 27, 1877; BY ACT OF MASSACHUSETTS LEGISLATURE, MARCH 10, 187

MEASURE OF LENGTH.

Metric denomination and value.		Equivalent in denominations in use.	
Millimeter	1-1000 of a meter.	.0394	inch.
Centimeter	1-100 of a meter.	.3937	inch.
Decimeter	1-10 of a meter.	3.937	inches.
Meter	1 meter.	39.37	inches.
Dekameter	10 meters.	393.7	inches.
Hektometer	100 meters.	328	feet 1 inch.
Kilometer	1,000 meters.	.62137	mile, or 3,280 feet 10 inches.
Myriameter	10,000 meters.	6.2137	miles.

MEASURE OF CAPACITY.

Metric denomination and value.			Equivalent in denominations in use.	
Name.	Number of Liters.	Equivalent in Cubic measure.	Dry measure.	Liquid or Wine Measure.
Milliliter	1-1000	1 cubic centimeter.	.061 cubic inch.	.27 fluid dram.
Centiliter	1-100	10 cubic centimeters.	1.6102 cubic inch.	.338 fluid ounce.
Deciliter	1-10	1-10 of a cubic decimet'r	6.1022 cubic inches.	.845 gill.
Liter (Leeter)	1	1 cubic decimeter.	.908 quart.	1.0567 quarts.
Dekaliter	10	10 cubic decimeters.	9.08 quarts.	2.6417 gallons.
Hektoliter	100	1-10 of a cubic meter.	2 bushels and 3.35 pecks.	26.417 gallons.
Kiloliter	1,000	1 cubic meter.	1.308 cubic yards.	264.17 gallons.

WEIGHT.

Metric denomination and value.			Equivalent in denominations in use.
Name.	Number of Grams.	Weight of what quantity of water at maximum density.	Avoirdupois weight.
Milligram	1-1000	1 cubic millimeter.	.0154 grain.
Centigram	1-100	10 cubic millimeters.	.1543 grain.
Decigram	1-10	1-10 of a cubic centimeter.	1.5432 grains.
Gram	1	1 cubic centimeter or 1 milliliter.	15.432 grains.
Dekagram	10	10 cubic centimeters or 1 centiliter.	.3527 ounce.
Hektogram	100	1 deciliter.	3.5274 ounces.
Kilogram	1,000	1 liter.	2.2046 pounds.
Myriagram	10,000	10 liters.	22.046 pounds.
Quintal	100,000	1 hektoliter.	220.46 pounds.
Metric ton	1,000,000	1 cubic meter or 1 kiloliter.	2204.6 pounds.

For Square Measure the square of long measure is used. For measuring land—in the place of acre—the **centar** which is one square meter, equivalent to 1,550 square inches; the **ar** which is 100 square meters, equivalent to 119.6 square yards; the **hectar** which is 10,000 square meters, equivalent to 2.47114 acres, are used.

For Cubic Measure the cube of long measure is used; **ster** is used as a measure of wood in place of cord.

The mill, cent, dime, dollar, and eagle of U. S. money exactly illustrate the decimal system of the metric measures, — the mill, cent, dime, corresponding with the milli, centi, deci of the metric system.

Abbreviations.—For meter, liter, and gram, the small initial letter is used, viz: m. l. g.; each division deci, centi, milli, also is abbreviated by using the small initial letters d. c. m.; but each multiple, deka, hekto, kilo, myria, is abbreviated by using the capital initial letter D. H. K. M.

Equivalents.—1 inch equals .0254 meter, or about 2 1-2 centimeters; 1 foot equals .3048 meter, or about 30 centimeters; 1 yard equals .9144 meter, or ab. 10-11 of a meter; 1 mile 1609 meters, or ab. 1.6 kilometers.

1 U. S. liquid quart equals .946 liter, or a little less than 1 liter; 1 U. S. dry quart equals 1.101 liters; 1 U. S. gallon equals 3.785 liters, or about 3.8 liters; 1 U. S. bushel equals 35 24 liters, or about 4-11 of a hektoliter.

1 avoirdupois ounce equals .02835 kilogram, or a little less than 30 grams; 1 Troy and apothecaries ounce equals .03110 kilogram, or a little more than 30 grams; 1 avoirdupois pound equals .45359 kilogram, or about 5-11 of a kilogram; 1 long ton—2240 pounds—equals 1016.05 kilograms, or about 1 metric ton.

Basis of the system.—1. The unit of length, the meter, is the ten millionth part of a quadrant of the meridian of Paris, being 39.37 inches, nearly. 2. The unit of surface, the ar, is the square of ten meters, or a hundred square meters. 3. The unit of capacity, the liter, is a cube whose edge is a tenth of a meter. 4. The unit of weight, the gram, is the weight of a cube of rain-water, whose edge is an hundredth of a meter. From these four primary units all others are derived according to the decimal scale.

Where used.—The system is adopted by the following countries: in exclusive use in France, Germany, Austria, Belgium, Holland, Italy, Spain, Portugal, Norway, Switzerland, Roumania, Brazil; in partial use in Denmark, Greece, Argentine Confederation, Venezuela; legalized, but not in general use, in the United States, Great Britian, Russia. Norway, Sweden, Turkey, Mexico, Chili, Costa Rica, Equador, Peru, U. S. of Columbia, Uruguay.

STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know on what part of Main street No. 620 is: turn to Main street, and you find that Austin street runs from 602 right side, and Chandler street from 648, showing that No. 620 comes on the right side of Main street between Austin and Chandler.

Or, suppose that, going up Main street, you wish to take a cross street so as to call at 65 Woodland street; on examination (see Woodland) you find that 61 Woodland is at the corner of Norwood street; so by passing from Main street through Norwood street to Woodland, you are near the desired number, 65.

Dashes are substituted for numbers on streets that are not numbered.

In Worcester as in all cities street numbers usually begin at that end of a street which is nearest the centre of the city.

ABBREVIATIONS.—Av. avenue; ct. court; e. east; fr. from; n. near or north; pl. place; s. south; sq. square; w. west; Wd. ward.

Boulevard. — There is no street properly bearing this name; but, in common usage, the term is applied to Park Avenue upon the western side of the city; and to Lake Avenue, along the west shore of Lake Quinsigamond, from Harrington to Belmont street, (and legally decreed from Belmont street to Lincoln street.) It is intended that these avenues shall connect: at the north, by Lincoln, Melrose, and Millbrook streets; and at the south, by Harrington street from the Lake, thence, striking across, by a road to be constructed, to the wireworks at Quinsigamond village, skirting the foot of Mt. St. James, to Hope Avenue, thence by Webster and Mill streets.

FIRE ALARM TELEGRAPH.

Under charge of Joint Standing Committee on Fire Department.

Superintendent.—Charles M. Mills, term expires January, 1890. Salary, $1,300. Office, 10 Bigelow Court. Elected annually in December by City Council in Convention.

Assistants.—John C. McDonald, salary, $65 a month; Edward D. Healey, salary, $65 a month; appointed annually by the superintendent.

The telegraph, constructed at a cost of $17,000, was accepted by the city, July, 1871. Alarm is given instantly from the Alarm Boxes to the office of the Fire Department, to each of the engine houses, to the house of each engineer, and at the police office, the number of taps indicating the box from which the alarm is given. The taps can also be heard at each of the other boxes. Keys to the boxes are in the hands of the police, and the nearest responsible resident to each box, or in a glass compartment attached to the box.

EXPLANATION.—For a fire near box 4, the bells will be struck 4 times, 2½ seconds apart, then after a pause of 20 seconds, 4 times again, and so on. For a fire near box 45, the bells will give 4 strokes (for the tens), and after a pause of 7 seconds, 5 strokes; to be repeated at intervals of 20 seconds.

Two strokes of the bell are given for a recall when fire is out.

Three strokes of the bell are given for a general alarm.

Five strokes of the bell are given at 12:05 P. M., to test Fire Alarm System.

RULES AND REGULATIONS.

An Ordinance governing the introduction and use of Water in the City of Worcester. Passed in 1887.

SEC. 1. All applications for the use of city water must be made at the office of the Water Registrar, in the form prescribed, stating truly and fully the various uses to which the water is to be applied, and signed by the owner of the premises to be supplied or his properly authorized agent.

SEC. 2. No alteration in any water pipe or water fixture, whereby the consumption of water is increased, shall be made without first giving notice and obtaining a permit therefor from the Water Registrar. No plumber or other person shall make alteration in or addition to any water pipe or fixture as aforesaid, unless the owner or agent shows a permit therefor, signed by the Water Registrar, and then only to the extent stated therein.

SEC. 3. All service pipe and its appendages laid in the streets shall be furnished and maintained at the expense of the city.

SEC. 4. All pipes and other fixtures upon the premises outside of the buildings of any taker shall be furnished and laid by the city at the expense of said taker, who shall maintain, keep in repair and protect the same from frost and other injuries.

SEC. 5. All water takers shall be held by the department liable for such repairs of the fixtures upon the premises occupied or owned by them as shall be deemed necessary to prevent waste of water.

SEC. 6. No damages shall be allowed any taker for shutting off water for the purpose of doing ordinary repairs on pipes, gates, hydrants or other fixtures, or for adding or inserting new ones, or for changes of pipes at any time from one size to another, or for lowering and raising pipes in any street or highway; but twelve hours' notice shall be given to all takers before their supply of water shall be cut off, except in cases of great emergency.

SEC. 7. The Committee on Water, Water Commissioner and Registrar, or any employe authorized by them, shall have access at all reasonable times to all premises where water is used, for the inspection or repairs of the fixtures, or for setting, testing or repairing meters, and also for shutting off the water from any delinquent taker by closing any faucet or cutting any pipe or pipes necessary to effect the object desired.

SEC. 8. The regular water rates shall be payable annually, in advance, on the first day of June, and bills for metered water shall be payable semi-annually, on the first day of March and September.

SEC. 9. If bills for water, meters, or service pipe, materials and labor furnished, are not paid within forty days after notice from the City Treasurer that the same are in his office ready for payment, the water shall be shut off from the premises which are supplied, and shall not be turned on again until all bills are paid, and in addition thereto two dollars for the expense of shutting off and letting on the water. This rule applies to all premises supplied with water, whether they are occupied at the time of such shutting off by the parties who owned or occupied the premises at the time the bills accrued, or by other parties.

SEC. 10. Whenever two or more several parties, or families, are supplied with water from the same service pipe, and any one of said parties refuses or neglects to pay the water rate when due, or to comply with the published rules and regulations, the committee on water shall cause to be put on seal locks when such parties refuse or neglect to pay.

SEC. 11. Water takers will be charged two dollars for shutting off and letting on the water at the street mains, for the purpose of repairs or extensions of services upon their premises. Water takers will be charged for all services rendered upon their premises for thawing out frozen pipe, or repairing the same in any manner, or for removing obstructions from their pipes. Twenty-four hours' notice will be required for letting on or shutting off the water. All persons are prohibited from opening or closing any service stop at the mains without permission from the committee on water.

SEC. 12. The construction and location of private fire hydrants or fountains shall be subject to the approval of the committee on water, and no charge will be made for water used from hydrants for fire purposes exclusively, and no fire pipe will be allowed to be used for any other purpose. Any person or corporation breaking this rule shall have the supply of water cut off.

SEC. 13. All injuries to service pipe, street mains, hydrant or other fixtures caused by excavations in putting in any sewer, drain or other pipe, shall be chargeable to the owner of the premises for whom such work is done.

SEC. 14. The use of hose for washing windows and sidewalks shall be confined to the hours of 5 to 7 A. M., and 7 to 8 P. M., and from April 1st to December 1st in each year.

SEC. 15. When a consumer shall prefer to pay the cost of such a meter as shall be approved by the committee on water, together with the cost of putting in and maintaining the same, rather than to pay tariff rates or for the quantity estimated, a meter will be put in; but in no case shall measured water be furnished for less than

WORCESTER *HOUSE DIRECTORY, Arranged by houses in numerical order. Price $1. DREW, ALLIS & CO.*

$4.00 per annum, payable in each case semi-annually, without regard to the amount of previous payments, and no reduction of the minimum rates will be made on account of vacancies.

SEC. 16. On all premises where meters have been set, the owner or owners of the premises shall be held to pay the rates according to the schedule adopted by the City Council for the entire amount of water used upon such estates irrespective of all under leases or any individual consumer or individual consumers upon such estates, and he or they shall be held to pay rate thereby until released therefrom by the committee on water. In all cases where meters are ordered, the size of the same necessary to do the work shall be determined by the department. Where a meter is set to cover the use of an elevator, no water will be allowed to be drawn through the meter for any other purpose.

SEC. 17. No fireman or other person, except for the purpose of extinguishing fires, or for the purpose of drill under the direction of the Board of Engineers, or the Superintendent of Sewers, under the direction of the Committee on Water, shall open any fire hydrant or stop-cock connected with the fire service without the consent of the Water Commissioner.

SEC. 18. Whenever an abatement on account of non use of water is desired, and notice thereof has been given at the office of the Registrar, while the person liable for the water rates is in possession of the premises, the water shall be cut off by an employe of the Department and an abatement made, less the charge of one dollar for cutting off; *provided*, that such seal locks as may be adopted by the Committee on Water may be placed upon faucets in tenements so connected with other tenements that they cannot be separately shut off in the street; but they shall not be put on in any house that can be shut off except for particular fixtures. The charge for putting on such seal locks shall be established by the Committee on Water. Such seal locks shall not be taken off by any one except an employe of the Department, on penalty of forfeiting all claims for allowance, and having the water shut off from the premises.

SEC. 19. No water taker shall be allowed to supply water to any other person or family outside his premises, nor shall any person take or carry away water from any hydrant, watering trough, or public fountain, without the consent of the Water Registrar first having been obtained in writing.

SEC. 20. Any person violating either of the foregoing rules shall forfeit and pay to the use of said city the sum of twenty dollars. Any person or corporation neglecting or refusing to comply with said rules and regulations shall have their supply of water cut off.

SEC. 21. All previous ordinances, rules, regulations and tariff rates, inconsistent herewith, are hereby repealed.

BOARD OF HEALTH.

ESTABLISHED BY LEGISLATIVE ENACTMENT OF 1877.
Appointed biennially by the Mayor and Aldermen.

James C. Coffey, term expires Feb. 1889. Salary, $1,000, and $200 as clerk of Board.
The City Physician, Lemuel F. Woodward, *ex-officio*.

General Inspector, Jonas White. Salary, $2.50 per day. Appointed annually by the Board
Inspector of Plumbing, John F. McCartney. Salary, $3.12½ per day. Appointed annually by the Board.

REGULATIONS.

The following Regulations are established by the Board of Health for the public health and safety.

Privies, Etc.

RULE 1. Every tenement in said city, used as a dwelling house, shall be furnished with sufficient drain, underground, to carry off the waste water into a common sewer or reservoir; and also with suitable water closets, or with a privy, the vault of which shall be underground, built and kept in the manner prescribed in this chapter, and of sufficient capacity for the number of occupants in such tenement.

RULE 2. Every vault or privy shall be so constructed that the inside of the same shall be at least three feet distant from the line of every adjoining lot, unless the owner of such lot shall consent or agree otherwise; and also three feet from every street, lane, passage-way or public place; and every such vault or privy shall be built in a thorough and substantial manner, and kept water tight, and its contents shall never be within eighteen inches of the surface of the ground. And whenever any privy or vault shall become offensive, the same shall be cleansed. In case the condition or construction of any vault or privy shall be different from the requirement of this section, the Board of Health, after forty-eight hours' notice to the occupant requiring him to cleanse said vault, may have the same cleansed, repaired, altered or removed, as may be necessary, and shall charge the expense incurred in so doing to the owner or party occupying the estate in which such privy or vault may be.

RULE 3. No water closet shall be maintained without a tight drain to convey the contents thereof to a proper reservoir or to the common sewer; and no such reservoir shall be established within twenty feet of any well, spring or source of water used for culinary purposes.

RULE 4. No privy or vault shall be opened in any manner or at any time than at such time and in such manner as the Board of Health may direct; and no person shall remove or carry

through any public street, highway or square of the city, the contents of any vault or privy, unless the person removing the same, and the cart, wagon or other conveyance in which the same is to be carried, shall be licensed for such purpose by the Board of Health. All such vaults shall be thoroughly cleansed out and the contents thereof removed once in each year, and oftener if the Board of Health so direct.

Drainage.

RULE 5. No sewer drain, not water tight, shall be allowed to pass within twenty feet of any well, or other source of water used for culinary purposes, and no person shall allow any pool of stagnant water to be and remain upon his premises after notice to remove the same by the Board of Health.

*RULE 6. Whenever it shall appear to the Board of Health that any cellar, lot or vacant land is a nuisance, or in such condition that it may probably become dangerous to the public health, they may cause the same to be drained, filled up, or otherwise prevented from becoming or remaining a cause of nuisance or sickness, and shall charge all reasonable expenses incurred in so doing to the owners or parties occupying such cellar, lot or land; *provided*, that notice shall have been first given, and forty-eight hours thereafter allowed, as provided in Rule 2.

*RULE 7. The owners or occupants of estates abutting on a public sewer shall cause such estates to be connected by proper drains with such public sewer. Whoever neglects or refuses to comply with such regulation shall be liable to a fine not exceeding twenty dollars for each day that such neglect or refusal continues.

Animals, Etc.

RULE 8. No animals affected with an infectious or contagious disease shall be brought within the limits of the city. No diseased animal or its flesh shall be sold or offered for sale; and no decayed, diseased or unwholesome meat, fish, vegetables, fruit or other articles of food shall be sold or offered for sale, in the city.

RULE 9. No person shall keep any swine or goats within the limits prescribed by the Board of Health, except the keeper thereof be licensed to keep the same by the Board of Health, and when so licensed, said animals shall be kept in a manner prescribed by the Board of Health.

RULE 10. All putrid, decaying or decayed animal or vegetable matter shall be removed from the cellars and outbuildings on or before the first day of June in each year. No fish, slaughter-house offal or other decaying animal matter shall be left or permitted to remain upon the land for purposes of fertilization, without being ploughed in, or otherwise rendered inoffensive.

House Offal.

RULE 11. Each family shall have a properly covered receptacle for swill and house offal, until the same is removed.

RULE 12—1. No person shall go about, in, or through the streets, squares or highways of the city collecting, carrying or removing swill or offal, unless duly authorized and licensed by the Mayor and Aldermen or Board of Health.

2. All swill or offal collected and carried through the streets, squares or highways, as before provided, shall be put and carried in a close-covered vehicle, box or other tight vessel, and shall be taken away and removed not less than three times in each week.

RULE 13. Every occupant of any building in this city shall keep such building and the yard belonging thereto free from all filth and substances liable to produce offensive odors.

RULE 14. No person shall burn, on premises occupied by him, any garbage, refuse woolen, silk, leather or India-rubber goods or other substances, so that the same shall evolve offensive odors and gases while burning.

RULE 15. No person shall deposit or permit to be deposited by any one occupying his premises, any house offal, brine, bones, dead animals, old leather, decayed fruit or vegetables, or any other rubbish, in any streams, ponds, catch basin, street, lane, alley or public grounds of the city. Further, no person shall clean, scale or wash fish or meat upon any street, lane, alley or public grounds of the city.

RULE 16. No person shall transport fat, bones or any decayed, putrid or vile-smelling animal or vegetable substances, through any of the public streets, lanes, alleys, or public grounds of the city, except in water-tight, securely covered vessels, from which no odors can escape.

Slaughter Houses, Etc.

RULE 17. No slaughter-house or abattoir shall be established or used as such within the two mile circle (the city hall being the center), and none elsewhere within the limits of the city, unless kept free from all obnoxious smells, and all offal shall be removed daily therefrom. No melting or rendering house shall be established or used as such within the limits of the city, except by permission and location of this Board.

RULE 18. No manufacturing or other business, giving rise to obnoxious or injurious odors, shall be established or continued within the city limits, except in such locations as this Board shall assign, and all persons having any control of existing manufactories, stables and fish markets, shall use all means available to render them inodorous and free from all obnoxious smells.

RULE 19. All licenses granted by the Board of Health may be revoked at the pleasure of said Board.

Contagious Diseases.

RULE 20. Every person, in whose dwelling there shall break out a case of cholera, yellow fever, typhoid fever, diphtheria, scarlet fever, small pox or varioloid, shall immediately notify the Board of Health of the same, and, until instructions are received from the Board, shall not permit any clothing or other property that may have been exposed to infection to be removed from the house, nor shall any occupant take up

a residence elsewhere without consent of the Board.

RULE 21. Any physician who may know of or be called to a case of either of the diseases specified in the foregoing regulations, shall at once report such case to the Board of Health, and receive their instructions in regard thereto; and whenever there shall come under the observation of any physician such number of cases of scarlet fever, diphtheria, typhoid fever, dysentery or spotted fever, so called, as in his opinion to justify the belief that any considerable epidemic thereof exists, he shall at once report the same to the Board, with such suggestions in regard thereto as may seem to him expedient.

RULE 22. All persons affected with either of the diseases specified in Rule 20, and all articles infected by the same, shall be immediately separated from all persons liable to contract or communicate the disease, and none but nurses and physicians shall be allowed access to persons sick with such diseases; and no person sick with any of said diseases shall be removed at any time, except by permission and under direction of the Board of Health, but all persons infected with either of said diseases who cannot be properly quarantined, may be removed, according to law, to such hospital or other place as the Board of Health direct, and no persons shall obstruct, hinder or oppose such removal, and when any person dies of either of said diseases, the body shall be buried under direction of the Board of Health, and no person shall obstruct, hinder or oppose such burial.

RULE 23. All bedding and personal clothing or other personal property, affected with contagion or infection, shall be disposed of or treated as the Board of Health may direct.

RULE 24. All bedding or other personal property, liable to propagate any of the diseases mentioned in Rule 21, shall be at once properly cleansed and fumigated, or *destroyed*, and the Board of Health, if they deem it expedient, may cause the same to be so cleansed or destroyed.

RULE 25. No person or article liable to propagate a dangerous disease shall be brought within the limits of the city without the special consent and direction of the Board; and whenever it shall appear to any person that such person or article has been brought into the city, immediate notice thereof shall be given to the Board, specifying its location.

RULE 26. No person or persons shall deposit ashes or rubbish in any place within the city limits, except in such places as shall be designated by the Board of Health.

PLUMBING REGULATIONS.

As established by an Ordinance of the City.

SECTION 1. The Board of Health may license proper persons to carry on the business of plumbing.

SECT. 2. No person shall carry on the business or do any work of plumbing unless he shall have first obtained a license and registered his name and place of business in the office of the Board of Health, and notice of any change in the place of business of a registered plumber shall be immediately given to said Board. Provided, that this section shall not apply to employes while working for licensed plumbers.

SECT. 3. Every dwelling-house where a public sewer abuts the estate shall be supplied with a water-closet for every fifteen persons, conveniently located and constantly supplied with water. All water-closets constructed after the passage of this ordinance must be supplied with water from a special tank or cistern, not used for any other purpose, unless permission has been first obtained from the Board of Health to use other fixtures. It shall in all cases be connected directly with the general or common drain-pipe of the house. The common drain-pipe shall be separately and independently connected with the public sewer, wherever such sewer is provided, and if there is no such sewer, with a properly constructed cesspool of a capacity approved by said Board.

SECT. 4. Where it is necessary to lay soil-pipe under the ground, it shall be of the quality known as "Extra-Heavy Pipe." The length passing through the walls of the building shall also be of Extra-Heavy Pipe. All cast-iron pipes must be sound and free from holes and other defects, of a uniform thickness, and of not less than the weights specified below for the corresponding diameters, and before use shall be thoroughly coated inside and out with coal tar or an equivalent substance.

External diameter, ordinary pipe:—

2	inches,	3½	lbs. per foot.
3	"	4½	"
4	"	6½	"
5	"	8	"
6	"	10	"

Extra-Heavy Pipe, external:—

2	inches,	5½	lbs. per foot.
3	"	9½	"
4	"	13	"
5	"	17	"
6	"	20	"

Drain and soil-pipes through which water and sewage is used and carried, shall be of sound iron when within a building, and for a distance of not less than five (5) feet outside the foundation walls thereof. They shall be securely ironed to walls or laid in trenches of uniform grade, or suspended to floor timbers by strong iron hangers, or as the said Board may direct. They shall have proper fall towards the drain or sewer, and soil-pipes shall be carried out through the roof, open and undiminished in size, to a distance of not less than two (2) feet above the roof, or as the said Board may direct. Changes in direction shall be made with curved pipes, and all connection with pipes shall be made with **Y** branches. Every waste-pipe used for conducting waste water from sinks or other fixtures shall be carried through the roof, open and un-

diminished in size, to a distance of not less than two (2) feet above the roof, or into soil-pipe above highest fixtures.

SECT. 5. Rain-water leaders must never be used as soil, waste or vent-pipes, and when connected with soil or drain-pipe shall be suitably trapped.

SECT. 6. Sewer soil-pipes or waste-pipe ventilators shall not be constructed of brick, sheet metal or earthenware, and chimney-flues shall not be used as such ventilators.

SECT. 7. Joints shall be run with molten lead, packed with oakum, and thoroughly caulked and made tight. Connections of lead pipes with iron pipes shall be made with brass ferrules, properly soldered and caulked to the iron.

SECT. 8. Every sink, basin, bath-tub, water-closet, slop-hopper, and every fixture having a waste-pipe, shall be furnished with a trap. Traps shall be protected from siphonage or air-pressure (when such make of trap is used that is liable to siphonage) by special air-pipes of a size not less than the waste-pipe; but air-pipes for water-closet traps shall be of not less than 2-inch bore. Air-pipes shall be run as direct as practicable, and shall not be of less than 4-inch bore where they pass through the roof. Two or more air-pipes may be connected together or with a soil-pipe; but in every case of connection with a soil-pipe such connection shall be above the upper fixture of the building.

SECT. 9. Waste-pipes from refrigerators, or other receptacles in which provisions are stored, shall not be connected with a drain, soil-pipe or other waste-pipe, unless such waste-pipes are provided with traps, suitably ventilated; and in every case there shall be an open tray between the trap and refrigerator.

SECT. 10. Pipes and other fixtures shall not be covered or concealed from view until after the work has been examined by the said Board, and the plumber shall notify said Board when the work is sufficiently advanced for inspection.

SECT. 11. No steam-exhaust shall be connected with any soil or waste-pipe or drain which communicates with a public sewer.

SECT. 12. A grease-trap shall be placed under the sink of every hotel, restaurant, eating-house or other public cooking establishment.

SECT. 13. For every license granted under the provisions of this ordinance there shall be paid to the clerk of the Board of Health the sum of one dollar for the use of the city.

SECT. 14. All previous ordinances, rules and regulations inconsistent herewith are hereby repealed. *Passed Nov.* 21, 1887.

Superintendent of Machine Shop, Milton P. Higgins, B. S. *(See pages* 726 *and* 727.*)*

The object of the Institute is to furnish a training school for young men, in which they can obtain an education in the branches not usually taught in high schools and academies, combined with practical instruction in mechanical and scientific pursuits. The student is thoroughly drilled in the scientific part of the trade or profession he proposes to follow, inculcated by the practical application, from day to day, in the machine shop or laboratories of the scientific facts obtained from books or lectures. It is intended that any graduate from the department of mechanics shall be fitted to assume the responsibility of superintending any department of mechanical work to which he has turned his attention, and to understand not only its practical details, but also its scientific principles.

Any graduate from the department of civil engineering shall be qualified to do any work required of civil engineers, and any chemist or designer shall be ready for work required of him. Conditions of admission: Knowledge of the common English branches, algebra, plane geometry, and French.

Instruction free to residents of Worcester County. To others $150 a year. The school year is divided into two terms. Number of students 160. Instruction given by recitations, practice, and lectures.

RECITATIONS.—The classes recite in small divisions, and time enough is allotted to each recitation to secure the utmost thoroughness. The adjustment of the different elements in the course of study, and the time assigned to each are set forth in the hour plan.

PRACTICE.—At the middle of the junior year each student, who has not previously determined his course, chooses a department, under the advice of the instructors, and from this time to the end of the course devotes to it his practice time of ten hours each week, and a part of the month of July; the mechanical engineers in the shop, the civil engineers in the field, and the chemists in the laboratory. All the students are required to attend these exercises. Beginners in mechanics are required to enter the school a half year in advance of others.

LECTURES.—These are given by the professors on various subjects. The students are in all cases required to pass an examination on the lectures.

EXAMINATIONS.—Written examinations are held twice a year. The rank of the student is determined by the average of an estimate of daily work and of these examinations. Reports of standing are sent to parents and guardians. The annual commencement occurs on the last Thursday in June.

FREE PUBLIC LIBRARY.

No. 18 Elm Street; Founded December 23, 1859.

Directors.

Chosen in December by City Council in convention.

Edward I. Comins, Waldo Lincoln;	"	"	"	" 1894.

Librarian.—Samuel S. Green. Salary, $3000. Office hours, 10 A. M. to 1 P. M., 3 to 6 P. M.; Sundays, 3 to 5 P. M.; chosen by the Directors.

Assistant Librarians.—Jessie E. Tyler, salary, $700; Lucie A. Young, salary, $750; Ellen L. Otis, salary, $600; M. Jennie Barbour, salary, $600; Sarah D. Tucker, salary, $650; chosen by the Directors.

The circulating department of the Library is open for the delivery and return of books from 9 A. M. to 8 P. M.; Saturday, open until 9 P. M.

The upper reading room, which is the room of the Green Library, is open from 9 A. M. to 9 P. M.; the lower reading room from 8 A. M. to 9½ P. M.

Sunday, both reading rooms open from 2 to 9 P. M.; also the library for purposes of reference.

The circulating department of the Library contains 33,894 volumes. These books can be freely used by citizens who have reached the age of fifteen years. *Occasionally*, temporary residents are allowed the use of them by giving satisfactory guarantees of their return.

There is an intermediate department of 17,520 volumes. Books in this department can be taken out under certain restrictions.

The reference department, or Green Library, consists of 22,255 volumes. These were most of them given to the city by the late John Green, M. D., or have been purchased with the income of the fund left by him to endow this department. By a condition of Dr. Green's will, they must be read in the building, every facility within the limitation of the will being given for their perusal. Valuable books on a great variety of subjects are to be found in this department. Special pains have been taken to collect dictionaries and encyclopedias in all branches of knowledge; and books likely to prove useful in developing the industries of the city, or in assisting mechanics, will be freely purchased in the future as in the past. Worcester, New York, Boston, Providence, New England, and Philadelphia directories, and late editions of comprehensive atlases, can always be found in the Green Library.

A manuscript catalogue is kept, closely written up, for the use of book-seekers and officers of the library.

The books of the Worcester District Medical Society are kept in the Free Public Library building, and may be consulted on the same easy conditions which prevail in regard to the use of the Green Library.

The Reading Rooms contain 289 papers and magazines, American and Foreign. These include Worcester, Boston, and New York newspapers, and news sheets from various sections of New England, the West, and South, and from the principal cities of Great Britain; also the principal literary and scientific journals, and the best of the magazines and reviews of England and America. A review, scientific periodicals, and newspapers in the German language, reviews, art periodicals, illustrated papers, and a scientific journal from Paris, two Canadian papers, one in the French language, and two Swedish papers are subscribed for. A specialty is made in the reading rooms of papers and magazines which treat of mechanical and other useful applications of science.

The current numbers of Punch, the London News, the Graphic, the Art Journal, and other illustrated papers; also bound volumes of the same can be seen here.

The reading rooms are largely supplied from the income of a fund of about eleven thousand dollars, subscribed by citizens.

Fuller, Dr. Albert P. Marble, Samuel S. Green; *Finance Committee*, Hon. Elijah B. Stoddard, Dr. Merrick Bemis, Francis A. Gaskill, Esq.

Without endowment and with a limited income, the society has been enabled to do its special educational work during the past nine years through the generosity of teachers, who have given their services without pay, and by the liberality of many citizens, who have from year to year aided it by their subscriptions. Public meetings are held the second Saturday of each month. At these meetings papers upon scientific subjects are read, by members and others, and all interested are cordially invited to attend, whether members of the society or not. Field meetings are held from time to time. The society has a large and well arranged collection of specimens in natural history, the local collection from Worcester County being of special value. Donations are solicited. Classes are formed in Botany, Mineralogy, Ornithology, Microscopy, Mollusca, &c., to which members are admitted free of charge. The Museum of the Society is open free to all, daily, from 9 A. M. to 5 P. M., with a custodian in charge, ready to exhibit the collections, answer inquiries, and assist students and amateurs in their investigations. Any resident of Worcester County may become a member by the payment annually, of $2.00 for gentlemen, $1.00 for ladies, and 50 cents for school children. A course of scientific lectures is given each winter; summer camp for boys at Natural History Park, Lake Quinsigamond, during July and August. Annual meeting in April.

CIVIL SERVICE COMMISSIONERS.

Appointed by the Governor. Central Office, 5 Pemberton Square, Boston.

Civil Service Commissioners.—Francis A. Osborn, *Chairman*, Boston; Charles Theodore Russell, jr., Cambridge; Arthur Lord, Plymouth.
Chief Examiner.—Henry Sherwin, Boston.
Secretary.—Warren P. Dudley, Cambridge.
State Board of Examiners.—Fred. L. Coburn, William D. Hawley, Frederick G. Pettigrove.

BOARD OF EXAMINERS FOR WORCESTER.

Appointed by the Commissioners.

Frederick W. Southwick *(Chairman)*, Geo. H. Mellen *(Secretary)*, James Early.

By enactment of the Legislature, all positions in the public service of Worcester, which are required to be filled by appointment, must be filled from applicants who have successfully passed an examination by a board of civil service examiners, excepting elective or judicial officers and officers whose appointment is subjected to confirmation by the executive council, the city council or the school committee, heads of departments, officers and employées for the faithful discharge of whose duties a superior officer is required by law to give bond; or teachers of the public schools, all of whom are not affected, as to their election or selection by this law.

Whenever a position is to be filled the examining board will notify the applicants on record, or such number of them as can be conveniently examined, to appear for examination, and appointments must be made by the appointing power from the three applicants who shall have the highest standing in such examination, persons who served in the army or navy in the late war having preference over others, *if of equal or higher standing.*

Every original appointment in the first division is for the probationary period of six months, at the end of which time, if the conduct and capacity of the person appointed have been found satisfactory, he shall be absolutely appointed, *but otherwise deemed out of the service.*

The power to remove, existing by law, is not impaired by anything contained in the civil service law.

The civil service is classified as follows:

Schedule A.—Includes clerks, copyists, bookkeepers, and others rendering clerical service.

Schedule B.—Includes all members of the police department, except police commissioners, chief superintendents, marshals and chiefs of police; also turnkeys, watchmen, drivers of prison wagons, and all others doing police duty in the prisons, houses of detention, reformatories, and all other public institutions and departments of the Commonwealth and the several cities; also watchmen, gatemen and guards in the public parks and ferries, draw-tenders, foremen and sub-foremen of laborers, inspectors of work, and all persons of whatever designation doing inspection service, not included in Schedule A.

Laborers and day workmen are not subject to examination, except in Boston.

COMMONWEALTH OF MASSACHUSETTS.
1888.

State Election on the Tuesday after the First Monday of November.

THE STATE

SAFE DEPOSIT COMPANY,

Insurance Building, 240 Main St.,

WORCESTER, MASS.

Every year since Safe Deposit Companies were originally formed has witnessed constant improvements in the methods of construction of their vaults and of their appliances, so that the vaults and safes built to-day are very different from those of a few years since, and afford much greater protection. In most of the prosperous cities of the country new companies of this kind have been established, which offer the highest degree of safety that the genius and skill of modern inventors and mechanics can afford.

The vaults of the STATE SAFE DEPOSIT COMPANY are in an extension of the building of the State Mutual Life Assurance Company in Worcester, built by the Norcross Brothers, upon plans prepared by Mr. Stephen C. Earle, architect, calling for the most massive and substantial construction: a thoroughly fire-proof structure.

The vaults, doors, locks, safes, etc., were constructed by the Damon Safe Works in Boston. They are of unusual strength and thickness, and in every detail of their construction the utmost thoroughness has been observed.

Before entering upon the work, the officers of this Company visited and inspected the newest and most complete deposit vaults in New York, Boston, and other cities, and feel confident that they have availed themselves here of all the recent inventions and discoveries, without the employment of which absolute safety cannot be obtained. The premises are entirely above ground, light and well ventilated. They will be under constant supervision, night and day, and every precaution will be taken to secure perfect protection. The safes are commodious, of various sizes, and accessible only to renters.

Prices, from $5 upwards, according to size.

Adjoining the vault containing the safes, the company has a storage vault, where it will receive, at reasonable rates, trunks or boxes containing silver or jewelry, pictures, etc., and generally articles of value more bulky than ordinary securities.

Persons leaving town for a time, and closing their houses, will find this a convenience and protection.

The Worcester Spy.

One of the very oldest newspapers established in America, the oldest newspaper in Massachusetts, and competent judges say, one of the best. The first piece of printing issued in Worcester was a copy of the Spy. This was in 1775. The publisher of the Spy was Isaiah Thomas, the patriot, and the founder of Antiquarian Hall in this city. He had been printing the Spy in Boston for five years, and had made it so conspicuously the advocate of freedom and liberty for America, as to incur the hostility of the royalists. Like Samuel Adams and John Hancock, he was singled out by the instruments of British tyranny to be "disciplined." He left Boston one night in the early Summer of 1775, and set up his press in Worcester, and the Spy has been published here without interruption since that day. Notwithstanding the fact that **Its History Covers More than One Hundred and Eighteen Years,** it has in all that time had substantially but three publishers—Isaiah Thomas, John Milton Earle, and John D. Baldwin & Sons. During all this period, embracing the entire history of this republic, it has ever been the stout defender of civil and religious liberty, the champion of the oppressed, the advocate of the anti-slavery movement in America, and the resolute opposer of all forms of narrow and bigoted knownothingism. The Spy is to-day faithful to its old traditions and also aims to give all the reliable news of the City, which it had an important hand in building, the State which it did so much to make free and independent, and the Republic which it helped to create and has for so many years defended. More than this, it to-day does what was impossible to do one hundred or even twenty-five years ago—gives every morning a *reliable* summary of the important events that happened yesterday everywhere in the civilized world. The Spy does not pander to depraved tastes, nor attempt to give baseless rumors for facts, nor seek to make the most conspicuous and important feature of its columns criminal episodes of life. It aims to give all the reliable news without fear or favor, and to be in all respects worthy of the welcome which it has had for these hundred years in the homes of Worcester and Central Massachusetts.

WHAT OTHERS SAY.

The city of Worcester owes a large debt to that bright, clean, progressive journal, the Spy, which has for so long a time worked for the welfare of the city and of the Commonwealth.—[Hartford Courant.

The Journal has too long been the neighbor and friend to the Spy not to rejoice in the prosperity which it so thoroughly deserves by enterprise, reliability, and all that goes to maintain the high standard of provincial journalism, which in more than one instance sets a worthy example to that of the great cities.—[Providence Journal.

The Spy has for many years enjoyed the reputation of being one of the best conducted papers in the State.—[Boston Journal.

The Worcester Spy deserves every bit of the success it enjoys. It is a sound, reliable newspaper. —[Boston Globe.

The Worcester Spy, one of the most able, discreet and judicious of Massachusetts journals, is an honor and a benefit to the community in which it is published.—[Salem Gazette.

The Spy is one of the best papers in this State.—[Boston Advertiser.

The Spy is one of the best papers in the country.—[Lowell Mail.

The Spy is a first-rate paper every way.—[Lowell Courier.

The Worcester Spy is perhaps the most creditable example of republican journalism in Massachusetts.—[Hartford Times.

One of the largest manufacturers of New England wrote as follows: The Daily Spy gives me all the essential news of the world in better shape than any other daily.

An eminent divine of St. Louis says: I do not believe you in Worcester know fully how good a paper you possess in the Spy. It is positively the best paper in the country.

A good mother in Kansas writes: We couldn't live without the Spy. It is positively the best paper I see, and I read many.

A distinguished statesman and a member of the U. S. Senate says: The influence of such a journal as the Spy for good in any city is incalculable.

An artist writes from Boston: I daily find in the Spy words that give me new courage, and I fully appreciate its elevating tendency.

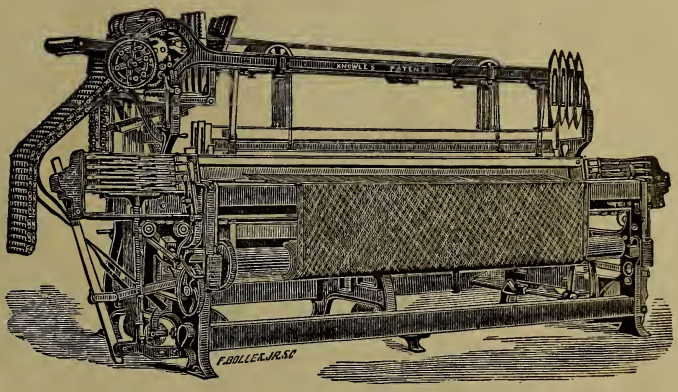
BUILDERS OF

KNOWLES' OPEN SHED FANCY LOOMS.

Looms for Worsteds, Woolens, Silks, Cottons, Dress Goods, Webbings, Suspenders, Ribbons, and every variety of Narrow Fabrics.



KNOWLES' OPEN SHED BROAD FANCY LOOM,

With Positive Crank Drop-Box Motion.

TWENTY-FIVE HARNESSES AND FOUR BOXES AT EACH END.

Perfectly positive in all its operations, and can never be made to put the wrong filling in any shed. Thousands of them in use in the best mills of the country.

The Knowles New 1885 Worsted Loom of 30 Harness capacity, 4 x 4 Box, arranged for Double Beams, each beam arranged with an automatic let-off motion, simple and complete, with positive or conditional take-up motion, is built from new and heavy patterns, strongly stayed by iron girders, and fitted with every device that experience has shown to be practical, and retains in it all the features that have made the Knowles' Open Shed Loom such a success.

Knowles' Two or Four Shed, 4 x 4 Box, "Pick and Pick" Gingham Loom, with positive Box Motion, so arranged that either one of the series of four boxes can be called at will, with Knowles' Patent Stop Motion combined with Friction Pulley and Brake, which stops the loom "on the pick" without jar or strain upon the loom in any way.

Knowles' New Ingrain Carpet Loom, Positive Box Motion, Journals operated by Chain or Cams, and will run successfully at a high rate of speed.

Knowles' 16-Harness, 4 x 4 Box, Fancy Loom, designed especially for the more extensive patterns in fancy cottons, worsted dress goods, etc. The Harness and Box Motion are the same as on the Fancy Woolen Loom.

The Harness Motion is Positive in both directions.—No Springs to pull harnesses down, consequently none to lift against when raising the harnesses.

The same efficient stop motion which is used on the Gingham Loom is attached to this loom, and combined with the brake in the same way; the whole mechanism being simple, easily adjusted, with few parts, and readily understood.

Knowles' New Velvet Loom, especially adapted for Silk, Mohair, or Cotton Plushes, Velvets, etc., cutting the goods automatically in the loom.

All the above Looms can be seen in operation at our works, or circulars will be sent on application.

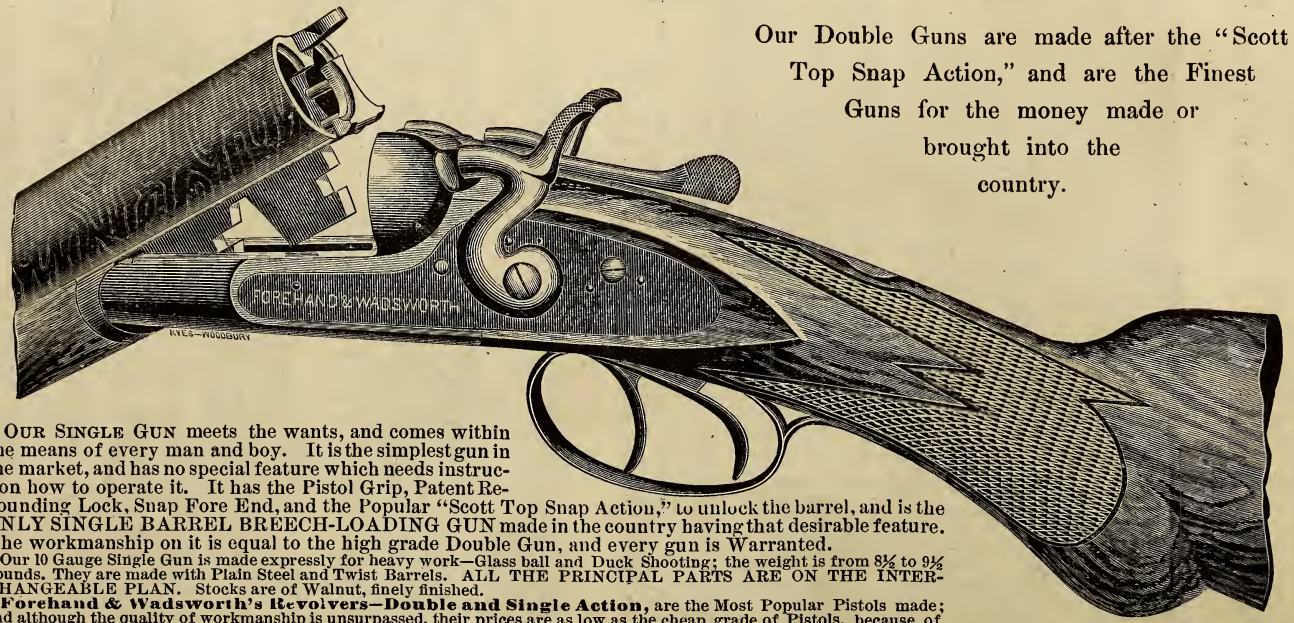
MANUFACTURERS OF BREECH-LOADING DOUBLE AND SINGLE BARREL SHOT GUNS.

Our Double Guns are made after the "Scott Top Snap Action," and are the Finest Guns for the money made or brought into the country.



OUR SINGLE GUN meets the wants, and comes within the means of every man and boy. It is the simplest gun in the market, and has no special feature which needs instruction how to operate it. It has the Pistol Grip, Patent Rebounding Lock, Snap Fore End, and the Popular "Scott Top Snap Action," to unlock the barrel, and is the ONLY SINGLE BARREL BREECH-LOADING GUN made in the country having that desirable feature. The workmanship on it is equal to the high grade Double Gun, and every gun is Warranted.

Our 10 Gauge Single Gun is made expressly for heavy work—Glass ball and Duck Shooting; the weight is from 8¼ to 9½ pounds. They are made with Plain Steel and Twist Barrels. ALL THE PRINCIPAL PARTS ARE ON THE INTERCHANGEABLE PLAN. Stocks are of Walnut, finely finished.

Forehand & Wadsworth's Revolvers—Double and Single Action, are the Most Popular Pistols made; and although the quality of workmanship is unsurpassed, their prices are as low as the cheap grade of Pistols, because of their unsurpassed facilities for manufacturing.

Send for full Descriptive Circular for Prices, Etc. Address, FOREHAND & WADSWORTH, Worcester, Mass.

PATENT MAGNETIC METAL SEPARATOR,

A recently invented machine for separating Iron Turnings, Filings, &c., from Brass, Composition, and other materials.

Its capacity and utility for this kind of work surpasses anything ever before offered to the public, doing its work most thoroughly, and with the least amount of labor or trouble. The machine is not only a great labor-saving device, but Brass Stock treated with it is much improved, as it is so thoroughly cleaned that it may be used for the best of work.

The machine may also be used for separating **Iron** from **Emery or Ground Rubber**.

WORCESTER HOUSE DIRECTORY,

Arranged by houses as they occur upon each Street; including all farm-houses to the city line, and the streets in alphabetical order.

All such names as usually appear in the Worcester Directory are included in this, while the names of all persons in business are given twice, once at the residence and again at the place of business. It thus includes all the names in the general alphabetical and in the classified business departments of the Worcester Directory, but arranged in numerical order upon their respective streets. Especially useful in charitable and missionary work, and for purposes of sending out invitations, notices, circulars, etc., as it enables the sender to select readily such names or such classes of people as may be desired, and in proper routes for easy delivery by messenger.

NEW ENGLAND VENTILATING AND HEATING CO.

GENTS:—You ask our opinion of your ventilating wheel. In reply would say that we have two of them in use and that they work very satisfactory, and clear our polishing rooms of dust which has heretofore been a source of much inconvenience to the men employed in them. Yours truly, GEO. J. HAZARD, Agent.
